

Cross-Border **OPERATIONS**

PGT Laredo, TX
Northbound Process Overview

pgttrucking.com | 724.987.1590 | svillarreal@pgttrucking.com

853 Nicolas D. Hachar Rd., Laredo, TX 78045

STEP-BY-STEP PROCESS OVERVIEW

1

LOAD INFORMATION AND ASSIGNMENT TO MEXICAN CARRIER

Detailed pick-up information is provided to Mexican partner via email. Mexican partners are thoroughly vetted and trained according to PGT's standards.

2

SECUREMENT PHOTO CHECK

Once loaded, Driver will send load securement and tarp photos for approval by the Mexican partner.

3

LOAD IN TRANSIT

After load securement is approved, Driver will proceed in transit to Nuevo Laredo yard in Mexico.

4

STATUS UPDATE AND BORDER CLEARANCE

PGT's Northbound Coordinator collaborates with the Mexican partner and the assigned customs broker for border clearance. PGT will keep all parties informed of the load's location at least twice a day.

5

NUEVO LAREDO YARD

Loaded trailer is dropped at Mexican partner's Nuevo Laredo secured yard to await border clearance. The commodity is not moved from this trailer.

STEP-BY-STEP PROCESS OVERVIEW

6

BORDER CROSSING

Once load is cleared, PGT Northbound Coordinator collaborates with Mexican partner to complete border crossing. The trailer used to load the commodity in Mexico is the same trailer used to cross the border and deliver into the U.S.

7

TERMINAL INSPECTION

Upon arrival to PGT Laredo, PGT will complete a thorough inspection to verify the condition of the equipment and commodity. Photos of the commodity are taken.

8

LOAD ASSIGNED TO PGT PROUD PROFESSIONAL DRIVER

Detailed pick-up information is provided via load script.

9

LOAD IN TRANSIT

After load securement is approved, PGT Driver will proceed in transit to final destination using the same trailer that was loaded in Mexico.

10

Delivery

Load is delivered successfully.

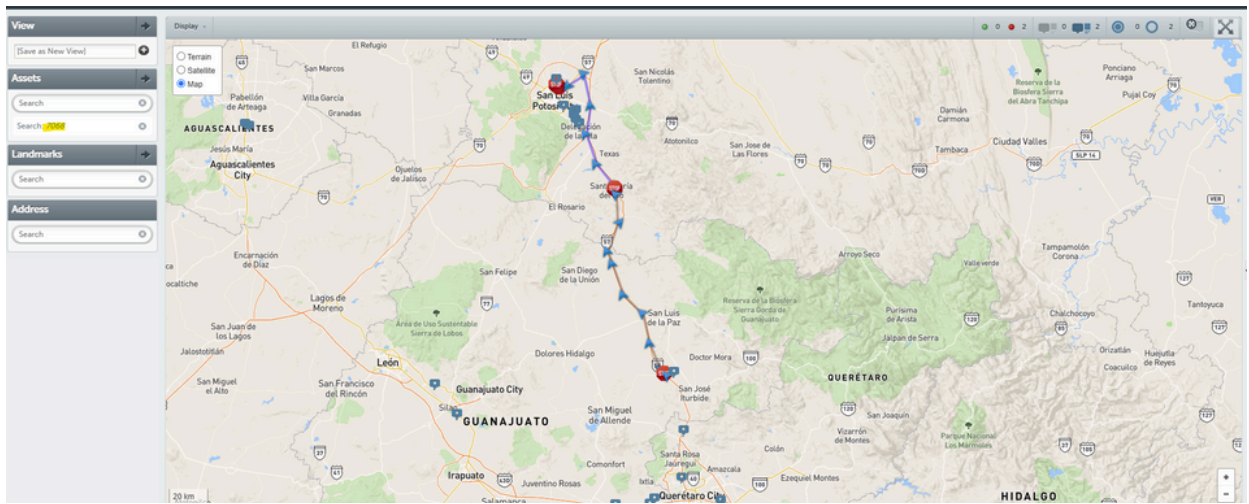

CROSS BORDER TRANSPORTATION

Northbound: Mexico to United States

PGT ADVANTAGES

All trucks and trailers have GPS locators, which tracks location in both the United States and Mexico. We know where your product is at all times.

PGT provides automated updates on your loads twice a day using custom reports that show you the exact commodity, truck, trailer, and location.
